

Let the robot help.

Our Automated Robotic Melt Shop (ARMS[®]) System utilizes a foundry robot on your melt deck to take care of the hazardous operations. Developed with safety in mind, our patented ARMS[®] system lets you relocate the operator to a safer distance away. It's an easy equation: safer, more comfortable working conditions resulting in improved employee retention and less risk for both personnel and your company. Now is the time to start talking robots with Inductotherm.
